

Deepwoods Ventures

Lady Bug Carving Pattern
www.DeepwoodsVentures.com

These little creatures can be very cute, especially when carved out of wood. Make him really large for effect or as tiny as you can.

Wood:

Basswood or Tupelo is recommended for this carving due to the detail that can be added.

Tools: This deer is best carved with a smaller knife such as a Detail Carver and a String Beaner. If making a large one, go with the rough out knife.

Options:

Carve it out of Butternut or a figured hardwood as a smoothy and leave it unpainted.

Super glue Paperclips in for les, and then paint them black

Paint: Everyone knows they are black and red but, go wild, use your imagination!
